Tips for selecting a suitable apartment:

1. **Location of apartment** is very important, 1 to 1.5 mile distance from your place of work/college building to your house will be preferable, use google maps to see the distance.
2. **Bus Stop:** Try to find if there any bus stop near the apartment you select, it will be very hard in winter w.r.t transportation because of snow, so if there are no bus stops near your apartments, try not to select them. It's good if bus stop is within 0.3 mile (nearer the better) from your house. Again you can use google maps to find it.
3. **Lease period:** All apartment lease will be for 1 year only some offers 6 months.

4. Try to choose roommate and apartment as soon as possible, because apartments are filled very quickly.
